## ANYTRAY RACK®

Designed to easily integrate into any packing line. The AnyTray Rack is controlled by an external signal to accommodate speed and de-nesting requirements. Place it over the conveyor, send a signal, and your line is up and running.

### MAIN FEATURES

- ▶ Includes AnyTray Denester
- ▶ Full external control over de-nesting speed
- ▶ Alarm for no-tray/low-tray detection available
- ▶ Height made to fit requirements
- ▶ Easy to clean
- ▶ Suitable for any kind of food packing application
- ▶ OEM versions available
- ▶ Danish craftsmanship

## ANYTRAY AUTOMATIC BUFFER®

The AnyTray Automatic Buffer automatically feeds the AnyTray Denester and significantly lowers the need for personal refilling attendance, thanks to the larger tray buffer.

### MAIN FEATURES

- ▶ Includes AnyTray Denester
- ▶ High reliability
- ▶ Alarm for no-tray/low-tray/missed-tray
- ▶ Buffer length, width & height per your requirements
- ▶ Few moving parts = Low maintenance/service
- ▶ Easy to clean
- ▶ OEM versions available
- ▶ Danish craftsmanship

## ANYTRAY DENESTER® - it's how you de-nest.

Over 30 years of experience in developing and manufacturing machines for the food industry have resulted in the AnyTray range. A compact, versatile, modular and highly efficient tray de-nesting solution - always custom-made to fit your needs!

### MAIN FEATURES

- ▶ 120+ trays a minute
- ▶ Accepts any size & shape of tray
- ▶ Tolerates < 0.1 mm of space between the trays
- ▶ No-tools tray change-over in 1 minute
- ▶ Compact
- ▶ 6 moving parts – low maintenance
- ▶ Alarm for no-tray/low-tray/missed-tray available
- ▶ OEM versions available
- ▶ Danish craftsmanship
- ▶ Fast payback time

The AnyTray Denester is easily integrated into any existing packing line. To fully accommodate all possible de-nesting needs we have developed a range of reliable and proven de-nesting solutions.

### KEY FEATURE

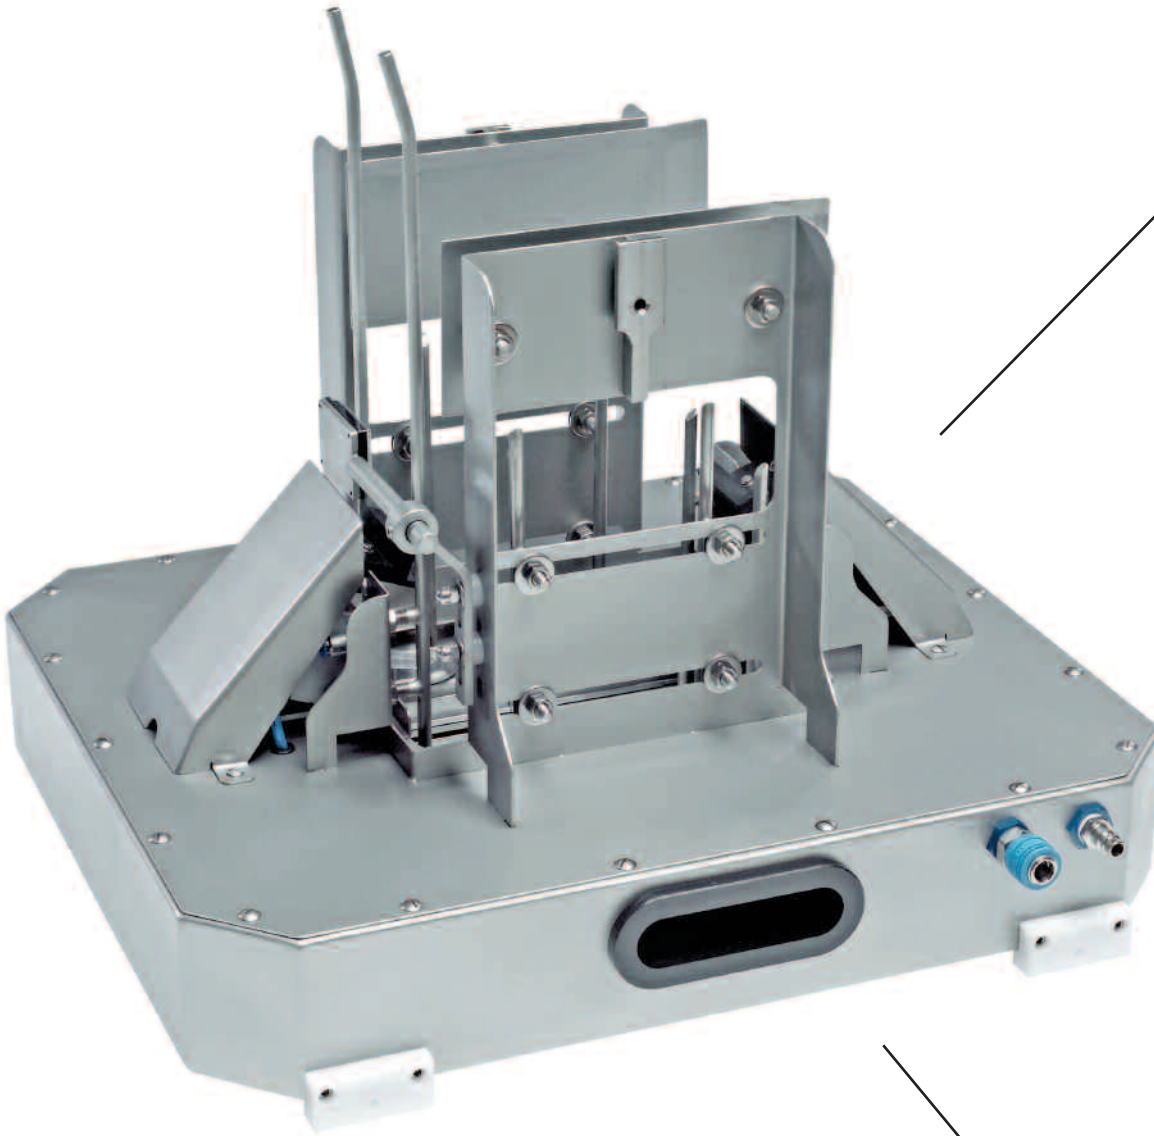

- ▶ Fast & effective de-nesting  
120+ trays a minute

### KEY FEATURE

- ▶ Any tray, shape, and material

### KEY FEATURE

- ▶ No-tools tray change-over in 1 minute

### KEY FEATURE

- ▶ AnyTray is easily integrated into any solution

## ANYTRAY PORTION-2-PACK®

We always customise our solutions to our clients' requirements. To fully accommodate our clients we developed the Portion-2-Pack solution. The AnyTray Portion-2-Pack is designed to quickly and seamlessly portion your product and place it in the tray.

### MAIN FEATURES

- ▶ Includes AnyTray Denester & AnyTray Automatic Buffer
- ▶ Line personnel has no contact with the product during processing
- ▶ Low maintenance
- ▶ Always customised to fit your requirements
- ▶ Fully integrated portion/tray detection & alarm
- ▶ OEM versions available
- ▶ Danish craftsmanship

## ANYTRAY ANYSOLUTION®

Our expertise in designing and manufacturing de-nesting solutions is at your disposal. We have designed, produced and installed customised solutions for well-established companies world-wide.

We can integrate the AnyTray de-nesting systems into any given de-nesting scenario. Our skilled designers and installers will customise the de-nesting to suit your specific needs and demands.

**We take care of the de-nesting,  
so you can focus on the bigger picture.**

## IT'S NOT WHAT WE DO, IT'S HOW WE DO IT...

Carsø has designed and produced stainless steel products for the food processing industry and retail business since 1976.

We design and produce a wide range of solutions, available as standard, customised and OEM:

- ▶ De-nesters
- ▶ Conveyor belts
- ▶ Screw conveyors
- ▶ Vertical screw conveyors
- ▶ Mixers
- ▶ Lifts
- ▶ Swing-loaders
- ▶ Portioning devices
- ▶ Tumblers
- ▶ Trolleys & Containers

We aim for versatility and efficiency in everything we do, which enables us to put our expertise in one-off solutions at your disposal.

We manufacture retail, customised and OEM solutions for satisfied key suppliers of food processing equipment across the globe.

At Carsø we are in full control of the entire process from product development through manufacturing, distribution and after-sales service.

Carsø is your international partner for creative and functional solutions for the food processing industry.

Despite our success, we are still solidly founded in the Danish tradition of craftsmanship:

**It's not what we do. It's how we do it.**
